## **MEDIA RELEASE**

### **G3 Global Receives Gold Award for SAP Quality Excellence**

SAP UKI recently announced G3 Global as a Gold Winner at its UK and Ireland Quality Awards Ceremony held at the Audi Centre, west of London on 6 May 2010.

The Quality Awards were created to reward and recognise customers that have, by using SAP's quality principles, achieved smooth implementations and anticipated benefits as measured against business requirements.

G3 Global was acknowledged for its excellence in the category of Small and Midsize Enterprise Implementation, one of three organisations awarded the Gold Award level.

G3 Global CEO, Chris Gunter was pleased to accept the accolade on behalf of the organisation and said the benefits of the implementation had already been experienced within the business.

"It's great to receive an award like this, which reaffirms and recognises the hard work the entire team has put into the implementation of more effective business processes using SAP," Mr Gunter said.

G3 Global, operating as an SAP Value Added Reseller (VAR), decided to implement SAP All-in-One to help manage its own finance and logistics.

The project objective was to harness SAP technology to set a solid foundation for future business performance and provide access to real time information in a cost effective way.

After implementing SAP All-in-One within a tight six week timeframe, the organisation has been able to reduce month end close to only six hours, down from 14 days.

The final result was achieved following the second month-end, which is an extremely significant accomplishment and highlights the benefit of a well implemented, fully integrated system.

Adhering to tight deadlines, achieving target deliverables and using quality processes throughout has resulted in a model implementation; one that is a true recommendation to G3 Global's own customers of the power and quality of SAP technology.

"As an SAP Channel Partner selling SAP Business All-in-One we decided to endorse what we had done, and show our confidence in our solution, by "drinking our own champagne," Mr Gunter said.

Riverbank House, 1 Putney Bridge Approach, London SW6 3JD

“I am very impressed with what the team achieved in such a tight timescale and can commend them to clients with the confidence that we will deliver a premium customer experience,” he added.

The winners were chosen by a specially selected judging panel made up of representatives from SAP, including Board members and executives from the Active Quality Management team.

### **About G3 Global**

G3 Global is a strategic business consulting partner helping mid and large enterprise deliver process efficiencies and strategic business goals.

This is achieved through the management of strategic change programs underpinned by best practice processes that use technology as the enabler to achieve strategic business goals.
